Create Variation Section (Merchant Panel Backend)
Merchants can now create and add unlimited variations types

Step 1: Variation Type: Single Selection (Button Type) and Multi-Selection (Checkbox Type)
(Merchants can select either one type for the specific product variation)

Step 2: Mandatory: Yes or No
(Merchants can make the variation type mandatory yes or no)

Step 3: Variation Header Title(BOLD)
(Merchants can type and edit a variation name/title)

Step 4: Variation Name
(Merchants can type and edit a variation header title)

Step 5: Variation Name (Able to Add Unlimited Variation Names)
(Merchants can add, type and edit all the variation names)

Step 6: Variation Value (Able to Add Unlimited Multiple Values)
(Merchants can add type and edit all the variation value or they can also choose to turn off the currency symbol)

FOR THIS ABOVE EXAMPLE
THIS MERCHANT HAVE 2 TYPES OF VARIATION
1) Single Selection (5 Button Types)
2) Multi-Selection (10 Variation Names & Values)

Once these steps are completed, it will become 1 set of Product Variation and then merchants have to create another type if they have more variations.
